Dental Sleep Medicine: The Advanced Course
8 CE Credits

Learn beyond the basics and take practical knowledge back to your office - 8 CE Credits

OVERVIEW

This 8-hour course is designed for clinicians and staff interested in learning practical and useful techniques on how to evaluate and treat sleep patients from start to finish. Every aspect necessary to help practices become proficient will be discussed: diagnosing sleep patients, physical examination, treatment planning, appliance selection, record keeping, appliance delivery, adjustments and medical billing. Hands-on sessions include appliance adjustments; appliance selection; bite registration techniques; physcial, screening and examination; appliance evaluation prior to delivery; appliance adjustments.

EDUCATIONAL OBJECTIVES

Attendees will learn the following topics:
- Proper Patient Identification
- Physical Examination
- Appliance Selection, Delivery and Adjustments
- Sleep Diagnostic Results
- Treatment Planning
- Practice Growth Strategies

UPON COMPLETING THIS COURSE, PARTICIPANTS WILL BE ABLE TO:

- Properly Identify patients with sleep disorders
- Perform a Comprehensive Physical Examination
- Identify dental and medical contraindications for proper case selection
- Capture accurate impressions and bite registrations
- Perform proper appliance adjustments
- Follow-up patient care until successful completion
