

CE WEBINAR

OraKlenz™ and the Treatment and Prevention of Periodontal Disease

Wednesday, July 24, 2024 | 5:00 PM(PT), 8:00 PM(ET)

COURSE OVERVIEW

In this webinar, we will introduce you to **OraKlenz**, the breakthrough oral care system that employs a newly perfected, digitally designed dual-tray process to deliver deep-penetrating medicaments and gateway protection to bacterial breeding grounds at and below the gum line.

Participants will gain insights into the latest findings, diagnostic solutions, and treatment modalities aimed at treating periodontal inflammation and integrating an oral health care plan into their practice. The ultimate goal: to improve not only oral health but also overall systemic health...and to ensure patient participation in their own treatment plan success.

COURSE OBJECTIVES

Attendees will learn:

- How to harness the effectiveness of the **OraKlenz** System to kill bacteria at the gum line and below, while continuing to protect against inflammation and bacterial regrowth.
- How to not only treat and protect against periodontal infection employing the **OraKlenz** System, but also positively impact systemic health and vitality (even save lives) in the bargain.
- How **OraKlenz** can help you choose, control and direct the most effective treatment for your patients...**AND** augment your practice return by more than **\$100,000 per year**.

ABOUT THE SPEAKER

Rob W. Veis, DDS

Rob W. Veis, DDS is the President/CEO of Space Maintainers Laboratories. He served as a Clinical Associate Professor at the University of Southern California for more than a decade, and currently lectures internationally on topics ranging from the application of appliance therapy to the importance of airway health to the mechanics of dental economics and practice building.
